SUMMARY

Enthusiastic and detail-oriented Data Analyst with a strong foundation in statistical analysis, data visualization, and data management. Proficient in Excel, SQL, Python, Power BI, and Tableau. Known for a keen analytical mind and the ability to derive actionable insights from complex datasets. Eager to leverage my skills and passion for data in a dynamic team to drive impactful business decisions.

PROJECTS

- **HR Analytical Dashboard-** Developed an HR Analytical Dashboard using Power BI to provide comprehensive insights into key HR metrics, including employee attrition, headcount, demographics, and performance
- **Netflix Dashboard-** Designed and developed an interactive Netflix Dashboard using Tableau to analyze and visualize key metrics such as content popularity, viewing trends, and subscriber demographics.
- **Jarvis-** Jarvis is an AI. Personal Assistant System. That can help you with your daily, regular tasks. You can control it using your voice. This system is made using Python programming.
- **Customer Analysis Dashboard-** Developed a comprehensive Customer Analysis Dashboard using Power BI to provide insights into customer behavior, segmentation, and purchasing patterns.
